PMP Certification Training Program

Delivery Method: Classroom

Duration: 4 Days

What you will learn

This four-day intensive course provides participants with comprehensive training to prepare them for the PMP examination (based on the PM Body of Knowledge, 6th Edition).

It will enable participants to:

- understand all elements of the PMP syllabus
- understand PMI's specific examination language
- learn strategies and techniques for mastering the examination

Students will learn how to:

- explain the context of Project Management
- plan the project strategy
- execute project plans and strategy
- demonstrate the use of various project management techniques
- design a project's organization structure and recognize appropriate levels of governance
- communicate with the project team through effective leadership
- understand the examination guidelines

Please note the cost of the PMP exam is not included with this course. You will pay that to the PMI when your application for the PMP exam is approved by the PMI authority.

Examination Guidelines

All PMI computer-based exams are offered at Prometric Testing Centers worldwide. You can check for locations on Prometric's website, <http://www.prometric.com/PMI/default.htm>. To earn your Project Management Professional (PMP)[®] credential, you need to meet the experience and education requirements, and pass the PMP[®] examination, a 200-question, multiple-choice test. The highly effective and results oriented study methodology of ours ensures that you are prepared to take the exam.

To pass the PMP Exam in the first attempt:

- We provide you study materials in line with *PMBOK[®] Guide - Sixth Edition*
- We provide a preparatory course before the classroom sessions
- We also give 2 month free access to our online course
- We also offer the extra tips and tricks which can make all the difference and help you excel on the PMP certification exam.

Audience Profile

The PMP certification is not domain specific. It is a generic project management certification. The PMP recognizes demonstrated competence in leading and directing project teams. If you're an experienced project manager looking to solidify your skills, stand out to employers and maximize your earning potential, the PMP credential is the right choice for you

Benefits

- Globally recognized and respected certification
- The PMP certification demonstrates your expertise in Project Management
- You will be a member of one of the most prestigious professional groups
- Recognized by leading companies worldwide
- Better job opportunities
